

LIQUID ROC 300

FOR BABA-DRIVEN PROJECTS — ANCHORED IN AMERICA!

LR300 is manufactured in the USA to help contractors and agencies meet today's **Buy America/Build America** expectations on DOT and federally funded projects. Stay bid-eligible, avoid waiver risk, and keep schedules on track.

**Regulations changed. Lead times tightened.
LR300, made in the USA, keeps your projects compliant,
your submittals moving, and your crews working.**

Switch to U.S.-Made LR300 for your DOT Projects! Request Pricing Today!

- **Twin Tube – polyester resin base, benzoyl peroxide hardener**
- **9 month shelf life**
